

**UNCOMMON**  
Liverpool St.

A man in a grey suit jacket stands with his back to the camera, leaning on a reception desk. A woman with blonde hair, wearing a dark top, sits behind the desk, smiling at him. The desk is made of dark, polished stone with gold veins. On the desk, there is a laptop, some brochures, and a potted plant in a copper-colored vase. The background shows a modern office interior with large windows, hanging spherical pendant lights, and other people working. The overall atmosphere is professional and welcoming.

# A lot happens at Uncommon

WHAT IS UNCOMMON?

It's a workspace that makes you  
feel good, so you do better.  
A creative yet calm environment.  
Supportive in every way.

Come to your senses.

WORK AT UNCOMMON.

Whether it's just you and your big idea,  
a small business with an ambitious future,  
or a 100-strong team with plans to  
keep growing,

FIND YOUR PLACE AT  
UNCOMMON.

OUR MISSION - WELLBEING

Feel good about where  
– and how – you work.

A place that doesn't just feel physically comfortable to be in, but emotionally supports you too, boosting efficiency and reducing stress.

Look After Yourself

At Uncommon, it's all about working better, not harder. We want you to enjoy the time you spend here, feel a sense of achievement at what you get done, and go home happy.

- Get together with yoga, boxing classes, HIIT sessions and the running club.
- Explore mindfulness and enjoy the silence in our quiet areas.
- Find your balance with help perfecting your posture as you work.
- Eat well with healthy choices and advice from our in-house nutritionist.

A co-working environment where every detail is designed to inspire and energise. Work doesn't feel like work when you're surrounded by creativity and character.

#### Ergonomics

Feel Supported.

Looking after yourself is as much about how you sit as what you eat. Chairs balanced for posture. Standing desks to stretch. Room to move. Stop the slouch. Get comfortable.

#### Biophilia

Breathe deeply.

A building without greenery is just unnatural. Plants create fresh air and make you happy, so the more the better. Roof terrace outside, plenty of pots inside. A healthier workspace to be. Find your place.

#### Sound

Mix things up.

Just because a place sounds busy doesn't mean anything's getting done. You need to hear yourself think. Office spaces that sound as good as they look. Music in tone with a focused mind. Find your rhythm.

#### Activity Based Working

Switch it up.

Fine-tune your environment. Clean minimalism for focus. Stimulating surroundings for creativity. Enjoy the space. Use it every way you can.

#### Lighting

Light up the place.

Great ideas come when you see things clearly. Well-lit spaces. Windows wide open. Moments of clarity. Make the switch-brighten up. Find a fresh perspective.

#### Scent

Come to your senses.

Improve your focus to work better, not harder. Notice the little things. How the scent in a room can change the way you think. Calm concentration. Inspired ideas. Keep things interesting.

You won't notice us. But we're always here in the background. Making sure you have everything you need. Helping you focus. Calmly supporting the every day.
